CHLOROTHALONIL 500 SC

**Fungicide**

**REG. NO.**: 12-B-7-24

**Net Contents**: 1 litre

**COMPOSITION**

Chlorothalonil  500 g/l

**CHEMICAL GROUP**: Nitrite

**A non-systemic fungicide suspension concentrate for the prevention control of diseases as listed in groundnuts, potatoes, beans, tomatoes, cucurbits, roses, gladioli, lawns and turf.**

**REGISTERED AND MANUFACTURED BY**:

Refloza Trading (Pty) Ltd
P O Box AV 201, AMBY
Bayer Complex
1 Martin Road, Misa
Harare, Zimbabwe
Tel: +263-4-446882-8

**Date of Manufacture**: See container

**Expiry Date**: If kept in a cool, dry place in its original unopened container this product is fit for use for at least 2 years.

**DIRECTIONS FOR USE: USE ONLY AS INDICATED**

**COMPATIBILITY**: CHLOROTHALONIL 500 SC is compatible with Kocide 2000® and with methomyl, metribuzin and cypermethrin. When using with these or any other chemical, be fully aware of precautions and directions on the label concerned. The use of a sticker is recommended.

**MIXING INSTRUCTIONS**: Shake CHLOROTHALONIL 500 SC container thoroughly before using. Measure the required volume of CHLOROTHALONIL 500 SC and pre-mix in at least 10 l water. Half fill the spray tank with water.

**GROUND APPLICATION INSTRUCTIONS**:

Ensure thorough wetting of both upper and lower surfaces by applying the recommended water volume and use as a preventative measure. Shorten spray intervals under conditions favourable to the disease concerned. Repeat treatments where more than 13 mm of rain or overhead irrigation was experienced within 72 hours after application. In the case of pivot application, do not apply shortly after rain to prevent risk of damage due to run-off. Apply during a single, continuous cycle of pivot. Do not apply treatments when day temperatures exceed 30°C.

**FIRST AID**

**PRECAUTIONS**:

Prevent contamination of food and feeds, drinking water and eating utensils.

**PRECAUTIONS**:

Prevent spray drift onto other crops, grazing, rivers, dams or areas not under treatment.

**FIRST AID**

Prevent contamination of food and feeds, drinking water and eating utensils.

**KEEP OUT OF THE REACH OF CHILDREN AND KEEP APART FROM FEEDS AND FOODSTUFFS.**

**WIZARD**

There is no specific antidote. Treat symptomatically and supportively as and when required. If product is swallowed, gastric lavage could be considered, taking care to prevent aspiration of gastric milk. Give oxygen if respiration is depressed.
